We need **3 main volunteers** to: oversee signing families up for their photography appointments. We have a website where you just go to and plug the names in, and your families can go on themselves to make an appointment. I will send you a link to use & put on your website. We need 20 signups for each day at least, but you can schedule up to about 25-27 families per day. The second volunteer makes sure we promote this so we can get everyone in the parish participating – it is a fun event, so people do get excited about

it. After the photography, the third person will do the layout of the few pages – or however many pages you decide – in the front of the book & send them in. We call them activity pages. I'll show you some samples so you see what I mean because it's been a while since the last meeting.

And **we need a volunteer to help check the families** in at each day of photography. I am getting flyers to put in your church pews – it's a very simple job, and people can volunteer for one or many days. We like to have 2 per day so there is someone from the church to just greet & chat with the families. So if you get a response from more people, do allow them to help.

Thank you very much Steve! I can't wait to meet so I can show you what you can do with your directory – how to use it for growth & fundraising – it's a tool that has so much value, much more than putting names with faces. This is very important, but if you use it wisely, it will help the parish even more - especially after your merge.

Great Day to You!
